## **Space Tour 2018 – Year 2**

Dear Parents/Carers,

Our topic next term is Space. In order to fully engage the children with this learning journey, we would like to begin the term by taking the children on a voyage into Space! We are encouraging all of the **children to dress up as astronauts (even the staff!)** on **Tuesday 20<sup>th</sup> November**. This space themed day is as an alternative to the previously planned trip to Herstmonceux Science Centre. This change has occurred due to having explored alternative learning opportunities linked to space, that provide an equally valuable learning experience at a more beneficial cost.

On the day, the children will travel through the universe and become immersed in space through the use of a mobile planetarium. In addition to this, they will learn about famous astronauts such as Tim Peake. The programme in space lasts 40 minutes and is specifically designed for KS1 children, thus creating a memorable and age-appropriate experience.

As I am sure you are aware to meet the costs of such events can be challenging and it is only with your support that this can happen. We are therefore asking if every parent could **donate £3 per child in order to meet the costs.**

**We are asking that all donations are returned to school in a named envelope by no later than Monday 5<sup>th</sup> November.**

Thank you for your continued support,

**The Year 2 Team**
